Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Chat Mobility maintains a public website displaying its entire selection of handsets and devices, including those that are HAC compliant. Sales staff are trained to assist customers in identifying HAC handsets and devices. Handset packaging inserts or operational manuals also provide information. Customers are also directed to other websites dedicated to HAC education. Additionally, Chat Mobility labels its hearing aid compatible handsets on its price sheets on its website, and the website has a link explaining hearing aid compatibility with wireless phones and services.

Methodology for Functionality Levels

Chat Mobility offers HAC handsets and devices in all major price categories, including low-cost (less than \$100);

moderate-cost (\$100-\$200); and high-end/feature-rich (over \$200). At least one HAC compliant handset/device with features and services typical of its price category can be found that meets each customer's price needs.
